HIGH PRESSURE FLEXIBLE STAINLESS STEEL BRAIDED HOSE

The DVM flexible pressure hoses are made from very flexible type 321 stainless steel hydroformed close pitched hose. The braid is a 300 series stainless steel.

These high pressure hoses are very useful in making difficult to configure plumbing connections. The hoses are available in any length with any type of end fittings. The ends can be made either straight or at any angle to facilitate hook-up. Typical ends are male or female NPT, VCR, VCO, Swagelok or any special flanges.

All assemblies are pressure checked at 500 PSI.

PART NUMBER	NOMINAL I.D.	NOMINAL O.D.	MINIMUM BEND RADUIS	LENGTH	TYPE OF FITTINGS
150900	.25	.45	5.5	Please Specify	Please Specify
150901	.38	.70	6.0		
150902	.50	.79	4.8		
150903	.75	1.18	6.6		

Price depends on length and type of end fittings.
Please fax or call with specification to obtain price quotation.
